Storage space organisation and load restraint on flatbeds

Transport containers for flatbed vehicles

bott vario | Transport containers for flatbed vehicles

For organising storage space and securing loads on flatbeds

- Systematic arrangement and securing of loads on the flatbed using subdivided storage compartments
- Quicker and more ergonomic access to the most important equipment via side doors, roller shutters, internal drawers without climbing onto the loading bed (depending on design)
- High stability thanks to robust frame construction
- Hard-wearing surfaces: Sides and floors in galvanised sheet steel, body with edge protection profiles.
- Splash resistant housing protects tools and materials
- Theft protection for transport goods thanks to robust locks
- Raised feet guarantee protection from standing moisture
- Customise internal storage space with vario system components
- Crash test verified pursuant to ECE R44
- Individual configuration also possible as alternative to package versions

Crashtests
nach ECE R44

bott vario | Transport containers for flatbed vehicles

bottTainer with roller shutters

- Weatherproof and lockable roller shutter made of robust aluminium
- Quick access to the complete usable volume
- bottTainer with a height of 910 mm, suitable for vehicles with tarpaulin cover at cabin height
- Customise internal storage space with bot vario system components
- Drawers with full extension slide, load capacity up to 40 kg
